Help OARS to make SA a safe place

Benefits of OARS Membership

Being a member of OARS SA primarily benefits other people. These are some of the most disadvantaged people living in our communities today and as the 'Get Tough on Law and Order' policy builds, the resources available for effective rehabilitation and restoration diminish. This is where OARS comes in.

OARS SA services assist to reduce crime in the community and include a comprehensive array of services for:

- people in prison
- those leaving prison
- their partners, children and wider families

Your support of OARS SA will ensure that people with a social conscience can become a member of an organisation that aims to reform the criminal justice system in South Australia.
